### **GEEKS CAN DANCE**

The world of dance is immense. Through gracious movements we seduce, amuse and impress each other. We dance at birthdays, ceremonies and even funerals. 'Geeks can dance' at home, at the office, on the street or anywhere on the planet.

Uploadcinema and Cinedans present the 'best dancevideo's' on the web. Let's see if the geek can outdance the professional!

### **ABOUT UPLOAD CINEMA**

Upload Cinema is a film club that takes the best web films to the big screen. Every first Monday of the month we present a fresh program of inspiring and entertaining Internet shorts. Each month there's is a new theme. The audience can submit films; an editorial team selects the best and compiles a ninety minutes program, which is screened at movie theatres and special venues.
